

Current Attaché releases (compatibility list)

This page lists the current version of each of the Access Attaché products and major components so that you can check you are up to date and using compatible versions.

See also:

- You can find release notes and related information in the **Release Information** area of the [Access Customer Success Portal](#). Release information is also available under **Latest releases** in the Attaché Help Centre. (For desktop releases prior to November 2019, see [Older Attaché Releases Home](#).)
- Major desktop releases may only be available by contacting your Access Attaché Consultant. You can find the most recent product versions that you can **download** directly at [Access Attaché: Latest releases and desktop upgrades](#) in the Access Customer Success Portal*
- The most recent **payroll tax scales** for your country are available [to download via the menu in Access Payroll](#)
- For **Attaché Online** deployments and changes, see [Attaché Release Log](#).

* You will need to log in to the portal to access the download page. If you don't have a portal login, see [Find out about the portal and register](#).

Attaché runs on all Microsoft-supported versions of the Windows operating system (as per the [Microsoft Windows lifecycle fact sheet](#)). To use Attaché on other operating systems, Attaché Cloud is available – [contact us](#) to find out more.
